Some Correspondence Regarding the Hargis Trial at Sandy Hook.

In view of the misleading statements published in regard to the recent trial of Judge James Hargis at Sandy Hook, and the recent communication in the Courier-Journal from Mr. A. Floyd Byrd, Mr. Edw. O. Leigh, the Governor's Secretary, today gave out the communication below from Mr. John M. Waugh, the Commonwealth's attorney, and Messrs. Byrd & Jouett, the employed attorneys representing the prosecution:

June 1st, 1907.
J. C. W. Beckham, Governor,
Frankfort, Ky.

Dear Governor:—After a conference with Byrd and Jouett, Attys., assisting in the prosecution of Hargis in Elliot county, I find that John A. Daugherty, who was selected by us at Sandy Hook to make orders in the cases, objectionable. All orders made in the cases there were agreed orders and I think binding and legal. I had no chance to confer with Byrd and Jouett before the case was set, and as the term of court was at an end we were compelled to do something.

The defendants and counsel offered to agree on any lawyer in the state that we would suggest and are yet willing as I understand it.

Daugherty I find out is no lawyer to speak of and probably not competent to try the cases.

I think if you know nothing to the contrary and I would suggest that Botts, of Owenton, N. C., Saufley or W. B. Moody would be entirely satisfactory to all concerned, some of them having presided before in some of the cases with entire satisfaction to both sides.

Governor, I hope you will consider these matters and men before issuing a commission in these cases.

Very respectfully,
(signed) JNO. M. WAUGH.

June 1st, 1907.
Hon. J. C. W. Beckham,
Frankfort, Ky.

My Dear Sir:—We have just had a conference with Mr. Waugh, Commonwealth's Attorney of the 32nd Judicial District, relative to the appointment of the Special Judge to try the cases of the Commonwealth vs. James Hargis, etc. Mr. Waugh was here principally to see us relative to the appointment of Judge Daugherty and after going over the matter with him frankly told him that we preferred not to have Mr. Daugherty appointed as he was quite an old gentleman; that the case would most likely be hard fought and would require a man of energy and younger years. It is also a very important case from a legal standpoint and there are a number of fine points on evidence and other legal points which will arise during the progress of the trial. From our investigation we are informed that Mr. Daugherty is not so good a lawyer as one should be to take charge of a case of this character.

We were in conference quite a while with Mr. Waugh and tried to get you over the telephone so as to make an engagement to come to see you in Frankfort but Mr. Leigh informed us that you were in the country and would not return until tomorrow. Mr. Waugh is compelled to return to Grayson tonight and the writer will be compelled to leave for Magoffin county tomorrow to be gone some ten days or more.

Before leaving Mr. Vaughn wrote you a letter, setting forth his views in regard to this matter and especi-

Miss Browning favored the company with a choice recitation, which was enjoyed by every one who heard it and which evinced her great talent in elocution. Refreshments were served at 10 o'clock, consisting of chocolate cream and cake, cherry and pineapple frappe was served throughout the evening by Miss Fannie Blue, who presided quite gracefully at the punch bowl.

Miss Nelle Sutherland entertained Tuesday evening, in honor of her guest, Miss May Sigler of Morganfield. The lawn was beautifully lighted with Japanese lanterns and presented quite an attractive scene. The refreshment served, were ices and cake. Those present were:

Misses Lizzie Gilbert, Irene Browning, Mabel Yandell, Sallie Joe McGehee, Maude Gilliland, Grace Moore, May Sigler, Lora Johnson, Messrs. Creed Taylor, Emmett Koltinsky, Clarence Gilliland, Gray Rochester and Maurice Sutherland.

Miss Ina Price entertained Tuesday evening from 6 to 8 in honor of her little music class, each member of which was asked to bring some one with them, when they had all arrived and those they had invited, there was a yard full. The evening was a most delightful one to all present for where can there be a more inspiring scene, than a children's party on the lawn on a summer day? Little girls, in each her best "bib and tucker," and little boys in knee pants and hearts as light as the air. Their laughter and the music of their voices drowning all else. Little Miss Tommie Canway won the prize, a handsome doll, ready dressed. James Howerton won the boys prize, a horn. Miss Mamie Haynes serve the punch throughout the evening in the contest.

Little Miss Rena Heath entertained on her sixth birthday, Saturday afternoon from 4 to 6 o'clock. Quite a number of her little friends were present and an enjoyable evening was spent. Misses Lillie Guess, Dessa Clark and Lillian Heath helped entertain the little guests. Ice cream, sherbert, cake, bananas and candy were served.

Miss Ina Price entertained the young society set at her home on Walker Street, Tuesday evening from 8 to 10 o'clock. Among those present were:

Misses Lena Holtsclaw, Alma Asher, Elva Pickens, Marya Dixon, Hazel Pollard, Reva Hill, Velda Travis, Messrs. Herchel Ramage, Emmett Clifton, Aubrey Cannan, Galen Dixon and Sylvan Price.

Miss Mammie Haynes served frappe to the guests as they arrived. The girls prize, a hand painted card case, was won by Miss Lena Holtsclaw and the boys prize, a box of candy, was won by Emmett Clifton. Delicious refreshments were served, consisting of ice cream, sherbert and cake.

CATALOGUE READY

Handsomely Illustrated Book Tells of
Premiums, Amusement Enterprises,
Music, etc.

The regular edition of the Kentucky State Fair catalogue, printed in three colors and handsomely illustrated, came from the press this week and thousands of copies are being mailed daily from the headquarters of the Fair at Louisville. The preliminary list for the State Fair were issued a month ago. It covered eighty odd pages. The regular catalogue has 152 pages. The classifications in all departments are complete, together with the speed program and an announcement of the big amusement enterprises of the Fair.

There are also eight fine half tone views of the new grounds and buildings recently purchased by the State Board of Agriculture as a permanent location for the State Fair. One page is devoted to a description of the balloon race during the Fair, with three views of the balloons in the air. The captive balloon is shown in a large half tone.

There is a page out of Captain Knabenshue in the passenger-carrying airship which is to make daily flights and exhibitions at the State Fair, Sept. 16-21. This is to be Captain Knabenshue's only appearance in Kentucky or Southern Indiana. His passenger-carrying airship will only make six appearances in America this year. Sectional views of the airship are printed for the first time, in the State Fair catalogue.

Two pages are given to points of interest in and around Louisville, while there is some valuable information on the railroad depots and ticket offices, together with the steamboat lines.

One of the most attractive views in the book is an attractive zinc etching of the eruption of Vesuvius, which is to be shown nightly during the State Fair week, together with Pain's famous fire works.

Natiello and his all-star band from the "Land of Music," which is to give three concerts daily during the State Fair, occupies two pages in half tone.

An entry blank accompanies each catalogue, also a souvenir post-card in seven colors, which the recipient is asked to mail to some friend.

Anyone desiring a catalogue will be sent one by applying to the Secretary, R. E. Hughes, at Louisville.

Chamberlain's Colic, Cholera And Diarrhoea Remedy, Better Than Three Doctors.

"Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. The Tramp.

A "bo" printer was fired from a freight car and had to foot it down a dirt road. The harvest days were at hand, and the tramp stopped and looked with intense admiration at the large dark-blue clusters of grapes swinging from the vines that trailed over an arbor in a farmer's orchard.

The wonderer looked about him and seeing no one, climbed the fence and, hiding himself among the rich green leaves, he devoured grapes, chomping the seeds and skin as well.

The farmer, having observed the tramp, came down through the field and drew his gun, as if to shoot.

"Git out of them grapes and come on with me. I'll take you before a magistrate. I've been bothered with you skallawags as much as I'm goin' to!"

The tramp came out, braced himself to a gospel pose: "Hold on now brother and don't get excited about it. I am hungry and those grapes looked good to me. And say, have you got a Bible up to the house? Yes? Well put that gun on your shoulder, go home, turn to Deuteronomy, 23d chapter and 24th verse and read as follows: 'When thou comest into thy neighbor's vineyard, then thou mayest eat grapes thy fill at thine own pleasure; but thou shalt not put any in thy vessel.'"

Contract for Tipple.

The West Kentucky Coal company has let the contract for its new tippie at Caseyville, to the North Vernon Bridge Co., of North Vernon, Ohio. The concrete work was let to the Mason-Hanger-Coleman company, of Richmond, Ky. The tippie is to be built of steel and concrete and will be one of the most modern on the Ohio river. The contract calls for its completion by next November.—Morganfield Sun.

New York's New Flatiron.

New York, July, 30.—New York city has, in the Seligman building, another "Flatiron." With its "point" to the north, it stands on one of the busiest corners in the busy financial sections of the metropolis. This new "Flatiron" however, does not cause the atmospheric disturbances which play havoc with skirts and hats in front of the other one at Broadway and Twenty-third street. High buildings on all sides give no space for a sweep of the wind, and hats stay on without the aid of hands.

Where William street and Beaver street meet the first divides into a fork, the south prong being called South William street. Between the two prongs is the Seligman building. Across William street is the Cotton Exchange and across South William is Delmonico's down town restaurant. One block to the north is Wall street and the old custom house.

Safety against fire was one of the chief objects of the architects of the new structure. Absolutely unburnable, both inside and outside, it illustrates well the attempt that is being made to put lower New York, or the "skyscraper" section out of danger. About 70,000 square feet of hollow terra cotta blocks were used in the partitions that cannot burn and are non-conductors of heat. A fire that might start in one room could spread no farther.

Most of the skyscrapers erected in New York in the last few years are of steel and hollow tile and this new type of construction has caused a substantial decrease in insurance rates.

Foundations of the Seligman building go down nearly 50 feet to solid rock. They were made continuous and from a solid masonry wall, six feet thick, enclosing the entire lot. This wall forms a sort of dam to resist the heavy outward pressure and exclude all ground water from the cellar excavated within.

The sub-structure involved the excavation of 8,000 cubic yards of material. One hundred men were busy night and day on the job. The structural steel in the building weighs about 2,000,000 pounds. The exterior walls contain 1,200,000 red brick and 35,000 cubic feet of limestone, in addition to the granite near the bottom.

HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera And Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by J. H. Orme the leading drug store in Western Kentucky. Haynes & Taylor the enterprising druggist in Marion.

When the Mint is in the Julep.

When the mint is in the julep an' the hammock's swingin' right 'Neath the shady oaks, a hidin' of the summer sun from sight, Oh, it's then you're seein' visions of the valleys of delight, When the mint is in the julep an' the hammock's swingin' right!

The trees around you bowin' with a drowsy howdy-do, An' the wind that waves the branches sayin' dreamy things to you! An' you hear the ice a-clickin' in the goblet sparklin' bright, When the mint is in the julep an' the hammock's swingin' right!

Then life seems worth the livin' an' old trouble's on the shelf, An' you feel that you're a lovin' of yer neighbor as yerself; Aint it joy amazin', Colonel? Aint this old world out o' sight When the mint is in the julep an' the hammock's swingin' right? —Atlanta Constitution.

IN THE LIMELIGHT.

(Continued from first page.)

ally in regard to the persons who we thought you should consider for this appointment. We don't know whether you desire our views, as to who should be appointed, or not, but assuming that the reports, which we have seen in the newspapers, are true, we take the liberty of writing to request you not to issue a commission to Judge Daugherty to try this case and to suggest that the appointment of Judge Sausley, of Stanford, W. B. Moody, of Eminence, or Mr. Botts, Owenton, would be entirely satisfactory to us. We cannot recall the initials of Mr. Botts, but sometime since he was appointed by you to try the case of the Commonwealth vs Curtis Jett, in Harrison county, we found Mr. Botts to be a most courteous gentleman and a thoroughly trained lawyer and we know that he gave entire satisfaction to all parties. The defendant, after the trial of the case, thanked him for his impartiality in the matter and stated to him that he was the only man who had given him a fair deal. Mr. Alex Hargis also was highly pleased with the manner in which Judge Botts presided.

Mr. Moody was recently appointed by you to try the case of Sam Jett vs James Hargis, & c., pending in the Clark Circuit Court. He heard a motion for a change of venue made by the defendant and after two days trial, decided that the case should be transferred from Clark county to Bourbon county. While the plaintiff objected to this, yet they were entirely satisfied with Judge Moody as a lawyer and as a gentleman, and the defendant likewise expressed their entire satisfaction with Judge Moody's conduct and rulings in the case.

Judge Sausley is too well known to require any word of explanation from us. We understand that he has recently been appointed by you to try several cases in Morgan Co. We have seen very little of Judge Sausley, from what we have seen and heard of him, we are confident that his appointment would meet with the approval of the defendant as it would with ours.

There are other persons who we could suggest to you but we feel that you would be able to secure the services of either of these gentlemen if you were to put it to them that whilst it might be inconvenient them to preside, yet it is a duty which they really owe the State and that you feel that they should accept this appointment.

We do not believe that this case will consume over two weeks and we feel that either of these gentlemen would be willing to make that much of a sacrifice.

As above stated we do not know whether we are presuming upon your time and inclination but are writing this under the assumption that the reports we have seen in the newspapers are true and that you really desire to have our opinion in the matter.

Yours very respectfully,
A. F. BYRD.

P. S. If you should decide to consider either of these gentlemen you are at perfect liberty, if you wish, to explain to them that you know that their appointment would be satisfactory to the prosecution.

It will be recalled that upon the transfer of the Hargis case from Jackson to Sandy Hook Mr. Waugh representing the Commonwealth, and Mr. Will A. Young, representing the defendant agreed on Judge John A. Daugherty as special Judge to try the case. Later, upon learning of objections to him on the part of the prosecution's attorneys Judge Daugherty declined to serve. Judge Sausley, one of the parties recommended had already been appointed for a long term in the Morgan Circuit Court and both Judge Botts and Judge Moody were asked to serve as special Judge. Judge Botts declined, and Judge Moody accepted.

What The Hog Will Do.

It has been said that the hog is a machine, that oils itself, puts ten bushels of feed into less space than a bushel measure and in so doing doubles its value, then can carry it to market on his back. Corn, barley, oats, grass, clover or any of the by-products of these, loaned to a well-bred, thrifty hog, is money at big interest. In fact, it is a mint, the grains and grasses are the bullion which, put into the hog, is transmuted into coin. It is an honest mint and gives 16 ounces of avoidupois of edible meat, says the San Antonio Express. Properly bred, fed and intelligently handled, this automatic porker will pay off our debts, furnish the money to improve the farm, place a piano in the home, a carriage at the door, as well as means to educate the boys at the agricultural college.—Farmers' Home Journal.

Foley's Kidney Cure cures backache and all forms of kidney and bladder trouble. J. H. Orme.

Indiana Bean Route Bottle Takes.

On the nineteenth of last January, at the time of the flood, Miss Nellie C. daughter of John Castella, of Indiana, near this city, placed a bottle, with her address and request that the finder notify her writing, giving the date, place and the person finding the bottle. She corked the bottle tightly and threw it into the waters of the river, near Palestine.

The incident had been forgotten until a day ago, when she received a letter from Fort Screven, Ga., bearing of May 27, 1907, which stated the writer, Ernest McFadden, artilleryman in the United States, stationed at that point, sixteen miles from Savannah, had found the bottle on the beach, where it had been, and that his letter was in response to the request of the writer, the bottle being inclosed. The time between the bottle into the river and the finding of the artilleryman was one hundred and twenty-nine days, and it is shown how long it may have been on the beach before being picked up by the soldier. In view of the map indicates that the bottle had a remarkable voyage down the White, Wabash and Mississippi rivers to the Gulf of Mexico, to the East off the coast of Florida, these Northwest the Atlantic coast of Georgia till it reached the point.

The most direct route on the map from the mouth of the Mississippi river to Fort Screven is about 1,300 miles, and no doubt the bottle traveled much faster than the wanderings in the

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerve. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nerve to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorer."
